

THE RHYTHM

Frequency on one subject beats range.

About 75% of the authors AI engines cited had posted five or more times in the previous four weeks. Consistency, not reach, was the shared trait.

CITED AUTHORS POSTING 5+ TIMES IN 4 WEEKS	ABOUT 75%
---	-----------

CITED AUTHORS WITH 2,000+ FOLLOWERS	ABOUT HALF
-------------------------------------	------------

ENGAGEMENT AT FOUR TO FIVE POSTS PER WEEK	2.60%
---	-------

EXTRA IMPRESSIONS AT THAT RHYTHM	28%
----------------------------------	-----

PAST SEVEN POSTS PER WEEK	collapses
---------------------------	-----------

Semrush, 89,000 cited LinkedIn URLs, March 2026; AuthoredUp, 3 million posts, 2026.
