The door

A paid AI audit. Low risk, fast decision, easy yes.

The middle

Implementation. You build the first workflow and prove the win.

The back

A retainer: monitor, improve, train. This is where the business lives.

Why the order works

Each step earns the next. You never sell a retainer cold.

The rule

Sell the outcome, not the model or the tool.

Do this

Write your one-sentence audit offer. Save this.
