

# How to Get Cited by ChatGPT

The 4 signals Semrush found across 89,000 citations.

02 / 07

# Signal 1: A clear answer

State the point in the first two lines. Models lift clean sentences.

# Signal 2: A named source

Cite the study, the number, the date. Unsupported claims get skipped.

## Signal 3: One topic per post

Topical focus beats a post that touches five ideas and commits to none.

05 / 07

# Signal 4: Consistency

75% of cited authors posted 5 or more times in four weeks. Frequency is a signal.

# The shortcut

Write the sentence you want quoted, first. Then build the post around it.

# Do this

Rewrite your best post so the quotable line is line one. Save this for the 4 signals.
