

The proof-first portfolio

Show wins you earned, not tools you know.

Every project gets one line: the problem, the action, the result.

Lead with numbers you can verify, never with model names.

Keep three case studies that each read in under 30 seconds.

Replace skill lists with outcomes clients can copy.

Update the portfolio the day a result lands, not at month end.

Comment "PROOF" for the sheet. #freelance #ai
