

One idea, four formats

A single research base feeds every post you publish.

Write the base once: the fact, the angle, the quote, the hook.

Turn it into a carousel for saves and a cheatsheet for DMs.

Use a take to start conversations and a poll to collect answers.

Every format points back to one offer, one CTA, one result.

Production time drops near zero once the base exists.

Comment "4" for the repurposing sheet.
