

The AI Avatar Service Checklist

One model, one script, a hundred videos, sold as a service.

Brands pay for consistent talking-head content, not for the tech.

One licensed avatar can carry a full month of social video.

The sellable work is the script, the brief, and the review loop.

Your margin comes from volume, not from hourly creation speed.

Around 480 searches a month show a real, underbuilt market.

Comment "AVATAR" for the sheet. #aiavatar #content
