

Micro-SaaS on AI

A niche pain, an API wrapper, monthly billing. That is the whole model.

02 / 07

Find the boring pain

Seek the repetitive task a whole job title hates doing daily.

Wrap the API

A thin layer that turns an AI call into a finished output.

04 / 07

Charge monthly

Recurring beats one-off. Small accounts compound.

Keep the moat

The wrapper is copyable. The workflow and data are not.

06 / 07

Realistic ramp

Expect slow starts, churn, and constant niche feedback.

Your move

Pick one niche pain, prototype this weekend. Save this.
