Screen at Scale, Interview Human

Recruiters buy AI for sourcing and screening. The decision still lives in the human interview.

Comment "HIRE" for the sheet. #recruiting #ai

Sourcing

Match talent pools against job specs in minutes, not days.

Screening

Pre-qualify phone-screen answers before a human calls.

Pipelines

Keep hundreds of candidates moving without dropped threads.

The boundary

Judge the hire in the interview, never in the prompt.

Positioning

Sell speed in the funnel, sell judgment where it counts.

Your move

Offer a screening pilot to one agency this week. Save this.
