

One Source, One Week

A single long post becomes five pieces without extra thinking.

Start With the Core

One pillar draft. Reformat, never repaint.

03 / 07

Cut by Platform

LinkedIn wants the take, the feed wants the quote, the list wants the story.

Make the Checklist

Who publishes, when, and where lives in a table, not in your head.

Batch the Production

Generate the variants in one sitting, schedule the week, close the laptop.

06 / 07

Track What Moves

Reformat what worked. Kill what got silence.

Do This

Repurpose one post into five this week. Save this.
