

AI Grant Writing: Research-First, Faster Drafts, Warm Intros

Draft fast, back it with data, and let a director introduce you.

Research-backed drafts edge out bare AI text.

The workflow is evidence first, then outline, then write.

Warm intros from one happy nonprofit open the next door.

A fixed price per application keeps the decision easy.

Pitch in grant season, when the drafts are due.

Comment "GRANT" for the workflow.
