

Median Sites Index Just 38% of Their Pages

How the top 10% reach 71%.

The baseline

Half of all sites index less than 38% of the pages they publish.

The top decile

The best index 71% or more. Same internet, different habits.

Lever 1

Server-render the page so the crawler sees content immediately.

Lever 2

IndexNow pushes new URLs to search engines in minutes, not weeks.

Lever 3

Three-tier internal links so nothing is buried.

The result

Those three levers explained 61% of the indexation gap. Save this.
