

Your Link Is Costing You 60% of Reach

Put the value in the post.

02 / 07

The penalty

External links in the post body can cost around 60% of reach.

03 / 07

The first-comment myth

Moving the link to the first comment is dampened too. It is not a free pass anymore.

What works

Give the value in the post. Make people want the link, then put it where it belongs.

05 / 07

The better ask

Comment a word and you deliver the link manually or by DM.

06 / 07

Why it works

A comment is a depth signal. A link is a leak.

Do this

Rewrite your next promo so the post stands alone. Save this.
