

The Golden Hour on LinkedIn

90 minutes that decide 70% of your reach.

02 / 07

The window

70% of a post's total reach is decided in the first 60 to 90 minutes.

03 / 07

What to do in it

Reply to every comment, with a real sentence, not a thumbs up.

04 / 07

Why replies count

Each reply re-triggers distribution to that person's network.

05 / 07

The mistake

Post and walk away. You spend the hour making the post and skip the hour that matters.

The rhythm

Post, then be present for 90 minutes. Repeat 4 to 5 times a week.

Do this

Block the 90 minutes before you post. Save this.
