

Perplexity Cites Sources

Every Perplexity answer shows the source URL right on the page. That means you can trace which page earned the citation and reverse-engineer why.

02 / 07

On-Page Source Links

Unlike ChatGPT or Gemini, Perplexity renders clickable source links beside each claim. You see exactly where the engine pulled from.

03 / 07

Trackable Answers

If your page gets cited, you will see it in Perplexity's source panel. No guessing, no third-party tools needed.

04 / 07

Friendliest Engine

Perplexity is the only AI search engine that makes answer attribution fully transparent. That makes it the easiest to measure.

05 / 07

What to Optimize

Write clear, factual statements near the top of your page. Perplexity favors concise paragraphs that answer the query directly.

06 / 07

The 2026 Angle

1.3K monthly searches for this keyword show growing interest. Early movers who track Perplexity citations now will have data before competitors catch on.

Start Tonight

Open Perplexity, search your primary keyword, and note which sources it cites. Save this post for the tracking sheet.
