

# The Distribution Prop

LinkedIn Newsletters bypass the algorithm timeline. Every issue gets pushed directly to subscribers via notification and email.

02 / 07

# Why Most Skip It

Most brands treat LinkedIn as a post-only channel. The Newsletter feature sits unused because it requires a commitment to consistency.

03 / 07

# The Compounding Effect

Each issue grows your subscriber base. Unlike posts that decay in 24 hours, newsletters build an owned audience inside LinkedIn.

04 / 07

# Algorithm Immunity

Newsletter distribution is not subject to the same feed algorithm filtering. Subscribers get the issue regardless of your recent engagement metrics.

05 / 07

# SEO Crossover

LinkedIn Newsletter pages get indexed by Google. Your content lives on two platforms with one publish action.

06 / 07

# 1.3K Monthly Searches

1.3K monthly searches for LinkedIn Newsletter show growing interest. The brands building subscriber bases now own a distribution channel competitors cannot easily replicate.

# Start Your First Issue

Write one issue on a topic your audience already asks you about.  
Publish it this week. Save this post for the growth sheet.
