

The 5 Step Real Process

Getting cited in an AI overview is a pipeline, not a prayer. 720 searches a month look for this.

Answer First

Put the complete answer in the first two lines so the model can lift it.

Cite Yourself

Link supporting sources clearly so retrieval can attribute them.

04 / 07

Use Plain Structure

Headings that match real question phrasing get selected more often.

05 / 07

Keep It Direct

Definitive statements beat hedged paragraphs in extraction.

06 / 07

Repeat the Query

Mirror the user's words so the match is unambiguous.

Do This Tonight

Rewrite your top page intro into a two line answer. Save this.
