

# The Order That Finds Real Failures

Audit in sequence and the real issues surface. 720 searches a month want this exact runbook.

02 / 07

# Indexability First

If the page cannot be indexed, nothing else on the list matters.

# Render Second

Check that Google sees the page the way users do.

# Structure Third

URLs, headings, and hierarchy decide what retrieval can parse.

# Content Fourth

Direct answers and real depth keep pages eligible.

# Links Last

Internal and citation links distribute the trust a page earned.

# Your Move
