

AI Search Ads 2026

Paid search is being rebuilt by AI budget orchestration. The answer layer decides who gets the click.

The Answer Layer Wins

AI now summarizes what used to be the ad slot. If the answer is good, the click never happens.

Budget Sees Real Time

Campaigns decide where to spend in real time. Humans set the guardrails, the machine distributes.

Feed Quality Rules

The better your product feed, the more AI can say about you. Thin data means thin answers.

Bid on Questions

Stop bidding on a single word. Bid on the full question the AI answers with your product.

Measure the Answer

Track mentions in AI answers, not just clicks. Citation is the new impression.

Your Move: Tonight

Write the exact answers you want AI to give for one campaign. Save this.
