

The 90-Day Publish-to-Cited Path

The brand follows the byline. Publishing with receipts is the plan.

One theme held for ninety days lets the byline compound.

Two publishes a week beat one polished piece a month for citations.

Every post links or names a source, so the claims hold up.

Numbers from your own work cannot be argued with.

At day ninety, audit who is quoting you and go deeper.

**Comment "EXEC" for the plan. #executivebranding
